Projects

1. **Study Squadron**
   Time: 17 May 2024 - 21 May 2024
   - Logged-in users can create assignments
   - Each assignment includes fields for title, description, marks, thumbnail image URL, difficulty level, and due date
   - Users can view the list of assignments, select one to view its details and submit their work

   Technology Used: HTML5, CSS3, JavaScript, React.js, Node.js, Express.js, MongoDB

   Live Site: **Study Squadron** | **GitHub**: Repository Link

2. **Adnan ART & Craft**
   Time: 29 April 2024 - 5 May 2024
   - Logged-in users can create Craft items.
   - Showcase all craft items in a visually appealing table format with a View Details button for each item
   - Allow users to view and manage their own added craft items, featuring filter functionality based on customization options

   Technology Used: HTML5, CSS3, JavaScript, React.js, Node.js, Express.js, MongoDB

   Live Site: **Adnan ART & Craft** | **GitHub**: **Repository Link**

3. **Adnan Land Agency**
   Time: 12 April 2024 - 15 April 2024
   - Employ powerful search filters and sorting options to discover job opportunities tailored to individual preferences.
   - Empower users to create personalized profiles, showcasing skills, experience, and achievements to attract potential employers.
   - Implement instant alerts for new job postings and application status updates, ensuring timely communication and engagement.

   Technology Used: HTML5, CSS3, JavaScript, React.js, Node.js, Express.js, MongoDB

   Live Site: **Adnan Land Agency** | **GitHub**: **Repository Link**
